

## TAKTENE® STYRENE BUTADIENE LATEX

Taktene® Latex are aqueous butadiene-styrene copolymer dispersions with a high amount of solid produced by cold polymerization.

- carpet backing
- agglomerates of coconut fiber and cork
- manufacture of insoles
- modification of asphalt emulsions.

It is used in the production of:

- gel and non-gel laminated foam
- molded foam
- lining impregnation

Taktene® Latex S62F contains no biocide and allows the use in food applications such as in the production of bubble gum base.

### ARLANXEO PRODUCT PROPERTIES\*

Name	Plant	Solids (%)	Brookfield Viscosity (cPs)	Styrene (%)
Taktene® Latex S62	Caxias	68	800	24
Taktene® Latex S62F	Caxias	68	800	24

### APPLICATIONS

Foams produced with Taktene® Latex present good elasticity, rebound and dimensional stability.

Asphalt binders modified with Taktene® Latex show elastic properties that reduce rutting (permanent deformation) and fatigue cracking, increasing pavement's durability and reducing its maintenance costs.

This modification also allows an expansion of the temperature range of service.

The manner in which you use and the purpose to which you put and utilize our products, technical assistance and information (whether verbal, written or by way of production evaluations), including any suggested formulations and recommendations are beyond our control. Therefore, it is imperative that you test our products, technical assistance and information to determine to your own satisfaction whether they are suitable for your intended uses and applications. This application-specific analysis must at least include testing to determine suitability from a technical as well as health, safety, and environmental standpoint. Such testing has not necessarily been done by us. Unless we otherwise agree in writing, all products are sold strictly pursuant to the terms of our standard conditions of sale. All information and technical assistance is given without warranty or guarantee and is subject to change without notice. It is expressly understood and agreed that you assume and hereby expressly release us from all liability, in tort, contract or otherwise, incurred in connection with the use of our products, technical assistance, and information. Any statement or recommendation not contained herein is unauthorized and shall not bind us. Nothing herein shall be construed as a recommendation to use any product in conflict with patents covering any material or its use. No license is implied or in fact granted under the claims of any patent.

**Health and Safety Information:** Appropriate literature has been assembled which provides information concerning the health and safety precautions that must be observed when handling the ARLANXEO products mentioned in this publication. For materials mentioned which are not ARLANXEO products, appropriate industrial hygiene and other safety precautions recommended by their manufacturers should be followed. Before working with any of these products, you must read and become familiar with the available information on their hazards, proper use, and handling. This cannot be overemphasized. Information is available in several forms, e.g., *safety data sheets and product labels*. Consult your ARLANXEO representative or contact the Product Safety and Regulatory Affairs Department.
